

Motion: that a party archivist be tasked with compiling the history of the party as an organization, with being a point of contact where branches are encouraged to send reproducible materials (posters, useful internal document formats, etc), and with assisting branches in doing their own archival/historical work. The party archive would seek to include the previously mentioned history and reproducible materials, as well as branch and CC meeting minutes. While some minutes of branch and Central Committee meetings prior to convention may understandably not be available for the archive, it should be mandatory for party meetings after this convention to take minutes to be sent to the party archivist.

Such historical work will in the long run provide us with greater institutional memory, accountability, and coherence.

-Grant Gallagher, Susie M.
